

NURSE AIDE POLICY

An individual who is not employed, independently contracted with or granted clinical privileges and does not have regular direct access to the vulnerable population is not covered under Public Acts 27, 28 and 29 of 2006.

If the individual is a student whose training is a one time occurrence that consists of a maximum of 40 hours, and is under direct supervision as defined within the Public Health Code, Public Act 368 as amended, the student is exempt from the criminal background check requirements under Public Acts 27, 28 and 29 of 2006.

A student whose training extends beyond 40 hours is subject to a criminal background check as required by Public Acts 27, 28 and 29 of 2006. The covered facility should be prepared to assist in making the background check process accessible to the training facility if the training facility does not have access to the fingerprint check process.
